## PROFILE

---

MERN Stack Developer with 3+ years of experience building production-grade full-stack web applications. Specializes in scalable REST API architecture, reusable React component systems, and database design across MongoDB, MySQL, and PostgreSQL. Proven track record of delivering measurable performance improvements — including 30% system performance gains and reductions in UI development time. Hands-on experience with AI-powered platforms, real-time applications, and CI/CD pipelines. Currently pursuing a BSCS in Computer Science while working full-time in the industry.

## TECHNICAL SKILLS

---

- **Frontend** — React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, MUI
- **Backend** — Node.js, Express.js, REST API Design, JWT Authentication
- **Databases** — MongoDB, MySQL, PostgreSQL, Firebase, Supabase, Drizzle and Prisma ORM
- **Tools & DevOps** — Git, GitHub, CI/CD Pipelines, Agile, API Integration, NPM, Yarn
- **Cloud/Deployment** — Docker, AWS, Vercel, Netlify Linux
- **Concepts** — Full-Stack Development, System Architecture, Real-Time Data, Admin Dashboards, Role-Based Access Control, Performance Optimization

## EXPERIENCE

---

### Dgsol Marketing Agency

02/2024 – Present

#### MERN Stack Developer

Faisalabad, Pakistan

- Built and maintained production-grade full-stack applications using MERN stack and MySQL, improving overall system performance by ~30%.
- Make reusable React component libraries, reducing UI development time by ~40% across multiple projects.
- Designed and implemented scalable REST APIs and admin dashboards, improving content and user management efficiency.

### TOPSOL

04/2023 – 01/2024

#### Frontend Developer

Faisalabad, Pakistan

- Designed and produced responsive interfaces for Marquee Booking System.
- Engineered the frontend for Coach, a health and fitness app, delivering responsive interfaces for workout tracking and user management.
- Collaborated with backend teams to integrate REST APIs, improving data rendering speed and overall user experience.

## PROJECTS

---

### Optilinko

- Architected a full-stack application using MERN stack and MySQL, featuring scalable REST APIs and a responsive React UI with reusable components.

- Delivered ~30% performance improvement via frontend and backend optimizations and database query tuning.
- Create an Admin Dashboard for blog management, increasing content handling efficiency.

### PlagiarismGuard

- Implemented core detection services for duplicate and AI-generated text analysis, including real-time content similarity scoring via RESTful APIs.
- Created responsive React interfaces for document scanning, reporting, and review workflows; integrated third-party detection tools.

### Bexit Admin Panel

- Architected a centralized dashboard using Node.js, Express, and JWT auth, featuring user/business approval flows and role-based access control for admins and owners.
- Delivered real-time revenue and user analytics, automated CSV/PDF reporting, and a responsive Tailwind CSS interface.

### Spicey

- Engineered a secure RESTful backend for the Spicey website using Node.js and Express, with enhanced MongoDB integration for efficient data storage and retrieval.
- Implemented user authentication and authorization system ensuring role-based access control and protected API endpoints across the platform.
- Collaborated with the development team using Git for version control, maintaining a clean and streamlined development workflow throughout the project lifecycle.

### Character AI

- Developed with Next.js, Node.js, Express, MongoDB, and Tailwind CSS. Features JWT auth, real-time chat, AI character customization, and an admin dashboard.
- Built a scalable REST API layer with optimized database queries for high-concurrency performance.

## EDUCATION

---

### Bachelor of Science in Computer Science

2023 – 2027 | Faisalabad

National University Of Modern Language - Faisalabad | 3.35 CGPA

## CERTIFICATIONS & LEADERSHIP

---

- **Finance Head of NUMCS Society, NUML** — | 2025 - Present
- **Web and Mobile App development, Saylani Faisalabad** — | 2022

## LANGUAGES

---

Urdu (Native) | English (Proficient)
